WARWICK

HEALTH  
& STAIN  
PROTECTION

OnGuard is a revolutionary fabric treatment that protects your fabric and those you love most.

OnGuard provides an invisible and durable barrier around every fibre of your furniture's fabric, so stains are easily wiped away and dirt is quickly removed with a simple vacuum.

OnGuard not only repels stains, but also eliminates common asthma and skin allergy triggers including bacteria, mildew, dust mites and fungus.

With a formula which is free of harmful chemicals, OnGuard is friendly to the environment and most importantly to those you love.

What should you do in the likely event of a spill?

Start by checking the fabric's care label. Treatment may differ depending on the fabric.

Always try to clean the stain immediately. First, use a dry absorbent cloth to remove the spill. Then, use a wet cloth to clean the fabric. It's usually that easy.
