POOLS GUIDE

Modular Pools for the lifestyle you want

What sets us apart from the rest?

Extensive Range

We have 20 different pool models, with small, medium or large sizes available in oval & round shapes.

Superior Quality

Clark pools are made with quality components and include Australian steel frames and specially-coated Bluescope steel walls. Only quality Australian-Made filtration equipment is used for your peace of mind.

Pool Packages

Affordable and convenient, our pool packages include everything you need to start building and running your pool in the fastest possible time.

Warranties

You can rest easy knowing that our pools are the highest quality because we back them all with an extensive manufacturer's warranty for extra peace of mind.

Expert Advice

Our team of Clark Rubber pool experts can help you find the right pool for your backyard. They'll provide advice regarding permits and installation, while giving you the right advice on equipment, service and maintenance.

Superior Materials

The materials used in the construction of Clark pools are specially selected to be fit for purpose and suitability in a swimming pool environment and the harsh conditions of the Australian outdoors.

These superior materials ensure high corrosion resistance and structural rigidity to best stand the test of time.

Optional Upgrades

You can enhance and customise your pool package with a large range of options to suit your lifestyle and budget.

A young boy is sitting on a large, white inflatable unicorn with a rainbow mane and a gold horn. He is in a blue, rectangular above-ground pool. The pool is surrounded by a wooden deck and a stone wall. In the background, there is a wooden fence and some greenery.

A pool to suit every backyard

The Clark Pool range includes the ever-popular Sunsoka range of 20 models, with pool volumes of 10,900 litres up to large 53,900 litre pools.

They not only increase the value and appeal of your property, but also create a backyard that your family and friends can enjoy for many years to come.

Clark pools are designed to come in various lengths and widths of 2.85 metres, 3.66 meters or 4.57 meters, so there is a pool to suit small and large back yard spaces.

Our pools are versatile and can be installed above-ground, partially in-ground or fully in-ground. Available in a variety of lengths and widths, with flat-bottom or deep-end options, our goal is to offer you a Clark Rubber pool that suits your backyard, and more importantly your lifestyle.

The Clark Rubber difference

At Clark Rubber, our mission is to bring people together and create memories that will last a lifetime.

Being a part of Australian backyards since 1946, we are extremely proud of our reputation as one of Australia's most trusted swimming pool suppliers. Australian owned and operated, we continue to provide excellent service and advice to our customers every single day.

We have an extensive range of affordable, quality pools to choose from with one to meet your budget, your backyard and your lifestyle.

Our team of pool professionals will help you choose the right pool and support you through the process with installation, optional upgrades and accessories, plus on-site pool service and maintenance to create the perfect pool for your backyard.

Clark Pool options to suit you

Whatever your vision, we can offer you loads of different options from our extensive Clark Sunsoka range to help you make the right choice for your home. All of our models have local after-sales support and feature generous pro-rata manufacturer's warranty, giving you peace of mind.

Pool Range	Salt Water Suitable	Oval Shape	Round Shape	Deep-End Available	Liner Colour Options	Total Models	Volume (L)	Prorata Warranty
Sunsoka - Range	√	√	√	√	√	20	10,900 - 53,900	20yrs

Above Ground Modular Pools

Setting up an above-ground pool is the most affordable choice, with less site-excavation and drainage costs than concrete and fibreglass pools. Our pools are tough, sturdy and built to last with an advanced braceless construction that provides the ultimate in rigidity. Plus, they're easy to install and look great with a range of styles to suit you and your backyard.

In-Ground and Partial In-Ground Modular Pools

Available in a wide range of shapes and sizes, our modular pools are suitable for in-ground or partial in-ground construction. They're also ideal for the budget conscious because when you compare the average cost of our in-ground pools plus decking, paving, fencing and landscaping with the cost of a similar-sized concrete, in-ground or fibreglass pool, ours come in at a fraction of the cost.

Depth Options

A standard Clark pool comes with a flat-bottom, however, if you choose a Clark pool that is over 7 metres in length, we offer the option to choose a deep-end version. This provides extra swim room by increasing the depth of the pool's water by 600mm. For just a small investment, this extra swimming space can make all the difference to the enjoyment of your pool.

Specifications subject to change

The Clark Sunsoka Salt Water Pool

The Clark Sunsoka is a value-packed pool made with high quality components.

It features durable resin decks and uprights along with a huge selection of 20 models, in round and oval shapes, including 5 deep-end options.

The state of the art, braceless pool design allows the Sunsoka Pool to incorporate structural strength and rigidity while remaining aesthetically appealing.

Made in Australia with sturdy resin posts and uprights, as well as high quality Bluescope steel walls, its robust construction is designed to suit the differing environments across our great country.

A typical Clark pool comes in a flat-bottom version, however if you choose an oval Clark pool that is over 7 metres in length, we also offer the option of a deep-end version.

A typical Sunsoka salt water pool package comes as standard with a salt water chlorinator which is an automatic chlorine generator that makes it simple and easy to maintain the sanitiser levels in the pool.

Standard Pool Package Inclusions

All Clark pool packages come with a range of standard equipment and components to help you build your pool, get it up and running, and start using straight away.

Filtrite Single Speed Pump

Designed and manufactured in Australia, the Filtrite single speed pump by Hurlcon is a quality pool pump engineered to last. Our Filtrite range includes 0.75 HP and 1 HP for our standard pool packages as well as an optional Filtrite Multispeed pump or Variable Speed Pump for lower power consumption and higher energy savings.

Filtrite by Hurlcon PE Pool Pump

Filtrite Filters

Our range of Australian-made Filtrite Filters by Hurlcon remove dirt and debris to help reduce the growth of harmful bacteria in your pool. They're available in a variety of sizes, which include both cartridge and media filters. Standard pool packages come with cartridge filters, but you can upgrade to a larger model or a media filter. Media Filters are filled with a bed of debris-screening media that can be conveniently backwashed with the quick flick of a lever.

Salt Water Chlorinators

Maintain a healthier pool with our great range of Filtrite Salt Water Chlorinators by Hurlcon. Aussie-made, they automatically and continuously generate the chlorine you need for better pool hygiene. With the convenience of a touch pad, you can adjust the level and timing of chlorine output.

The Filtrite CE Salt Chlorinator comes standard with all Sunsoka pool packages, but you still have the option to upgrade.

Filtrite by Hurlcon CF Cartridge Filter

Filtrite by Hurlcon CE Saltwater Chlorinator

Plumbing Kit

Your pool package comes complete with a filtration-system plumbing kit which includes:

- 40mm x 9.6m PVC pressure pipe
- 40mm x 90 degree elbow (x10)
- 40mm 2-way valve (x1)
- 40mm 3-way valve (x1)
- 250ml Clear Glue (x1)
- 250ml Clear Glue Primer (x1)
- Thread tape (x1)

Plumbing Kit

Pool Liners

Clark Rubber use only quality Australian Made Sterns or Abgal pool liners on all it's standard pool packages.

With a standard Sunsoka pool you have a choice of a light blue or dark blue liner with your standard package however this can be upgraded to a premium ABGAL pattern liner if desired.

Pool Liner* (Dark or Light Blue)

Ladders

Standard Deck Ladder

Pool Package Upgrades

Customise your pool and tailor it to your lifestyle and budget.

At Clark Rubber we have many ways to upgrade with plenty of equipment, tech, and add-ons to enhance your pool experience. It's a great way to get the most out of your investment and create the pool you really want. From an energy efficient pump, cartridge or media filters, advanced chlorinators steps and patterned liners, we have all options covered.

Filtrite P320 Variable Speed Pool Pump

Energy Efficient Pool Pumps

With variable speed options, the Filtrite Multispeed Pump and Astral Viron Variable Speed Pump let you take control of your pool's water circulation. You might pay more upfront for the energy efficient pump, however running at lower speed means lower power consumption, which will save you hundreds each year on your power bills.

Filtrite MF21 Media Filter
Filtrite by Hurlcon Cartridge Filter

Larger Cartridge Filters & Media Filters

Standard pool packages come with a compact, slimline cartridge filter to clean your water. For even better filtration, you can upgrade to a larger cartridge filter model or a media filter. Larger cartridge filters provide greater surface area on the element to catch more debris, while a media filter has in-built 'backwashing' to make cleaning it even easier.

Viron Active Glass Media

Glass Filter Media

Viron Active Glass Media is an advanced media bed designed to optimise the performance and efficiency of your media filter with lower micron filtration, longer intervals between backwashing, shorter backwash times and longer life span than traditional pool sands.

Halo Chlor 25

Advanced Salt Water Chlorinators

AstralPool Halo Chlor and Viron Chlorinators offer more advanced technology and features, including APP-based monitoring and control, and the ability to automate pH and Chlorine control.

Zodiac Element Minerals
Acquatherape Pool Minerals

Mineral Pools

At Clark Rubber you can choose a Mineral Pool instead of a salt water pool. For millennia, people have sought out the mineral springs and seas across the globe for the healing and relaxation properties. So now you can have a mineral spring in your own backyard and enjoy the relaxation, wellness and comfort it can deliver.

Pool Package Upgrades

Liners

Sunsoka pools can be upgraded with a range of specialty pool liners. You have the option to upgrade from our standard light or dark blue liner option with an even wider choice of appealing designs and colours.

Bahama

Reef Pebble

Coral Sand

Maui

Ladders & Steps

Take your pool to the next level with a range of optional ladders and steps. You can upgrade from the Sunsoka deck ladder to an A-frame ladder or a more robust and durable stainless-steel model for above ground pools. You may also opt for easy access stairs that look great and make entry simple and safe.

A-Frame Ladder

Stainless Steel Deck Ladder

Easy Access Stairs*

*Not available in all states

Qudo Soundproof Equipment Box

Available as a single box or extension, this compact storage unit is a great way to keep everything super quiet, organised, safe and out of harm's way. Plus, its sleek, modern design just looks better in your yard. Store away all your pool equipment and chemicals with the Qudo Soundproof Equipment Box.

Pool Package Add-Ons

Get the most from your investment with these optional add-ons:

Pool Cleaning Accessories

Pool Cleaning Accessories

Clark Rubber has a wide range of pool accessories to help you clean and maintain your pool. You'll find everything you need from chlorine dispensers and thermometers to leaf scoops and surface brushes.

Ask a Clark Rubber pool expert for advice on selecting the right range of accessories to ensure you always enjoy your pool.

Robotic Pool Cleaners

Filtrite RC-2500 Robotic Pool Cleaner

Take the hassle out of pool cleaning with a RC-2500 robotic pool cleaner. It's a great way to free yourself up and simply enjoy your pool. Using advanced brushing technology, it's the fastest and most efficient way to scrub your pool, while also filtering debris and harmful bacteria.

You don't have to lift a finger because it does all the work.

Automatic Suction Pool Cleaners

Make light work of cleaning your pool with an automatic suction pool cleaner. It's the easy way to clean your pool. Using the power of the pool's filtration pump, suction cleaners do a great job of sucking up debris, scrubbing algae, and skimming off any floating leaves.

That means less effort cleaning and more time to relax in your pool.

Zodiac AX20

Kreepy Krauly VTX-7

Pool Heating Options

Energy Efficient Electric Pool Heating

Pool heaters are inexpensive to run and simple to install, with some needing only a standard electric power point. They're also energy efficient because they draw over 80% of their energy from the air, which is then superheated and transferred directly to the pool water.

You can swim in your pool all year round with an energy efficient electric heat pump pool heater.

Solar Eezy DIY Solar Pool Heating

A solar pool heating system is a simple, effective and affordable way to warm your pool and to extend your swimming season so you can provide much more enjoyment to your friends and family. When it comes to installing solar pool heating systems, there is nothing simpler than Solar Eezy; Exclusive to Clark Rubber.

With Solar Eezy DIY Solar Pool Heating you can make it a weekend project and be swimming in the sun's free warmth in no-time.

Solar Eezy has been designed from the start for DIY installation, and so every component is cleverly designed to make installation easy and fuss free. Installing a Solar Eezy system is easy. You don't need to be a qualified tradie to install it. You only need basic DIY skills and common tools to complete the task. We make installation easy with clear, simple installation instructions as well as the key steps shown in a video for your convenience.

Solar Eezy 6m Roof Kit

Solar Pool Blankets & Covers

Keep your pool warm with Filtrite solar blankets and rollers. They increase your pool water's temperature and reduce evaporation to seal the heat in, while also keeping debris and leaves out.

With varying sizes, thicknesses and colours available, we have a blanket and roller to suit any pool and budget.

Next steps towards your new Clark Modular Pool

1. Determine what location and space you have available for your new pool and measure the dimensions.
2. Consider what shape and type of pool will suit your home and your family's needs. Round? Oval? A salt water or chlorine pool?
3. Determine if you will install your pool above ground or in-ground and if you want decking around the pool.
4. Note the location of overhanging trees and consider the implications of that on your pool.
5. Locate easements and investigate covenants that are relevant to works your property.
6. Consider your payment method. Clark Pools can be purchased on Interest-Free Finance*.
7. Discuss your family's needs with a Clark Rubber modular pool expert.
8. Choose your pool size and shape from our range of standard pool packages.
9. Order your Clark Modular Pool with the options that allow you to get the most from your pool.
10. Apply for permits. All pools and spas, as well as Pool and Spa safety barriers, require a building permit in order to commence construction and installation.
11. When the pool has arrived, we can arrange an optional delivery service to your home or you can collect it.
12. Excavate the land, install your pool and fill it.
13. Get your free water testing and balancing advice from Clark Rubber. We can also maintain and service your pool with our onsite pool and spa care service.

Almost every local council in Australia requires pools and spas to be fenced. Pool covers are required for heated pools and new pool installations in many Australian regions. A CPR sign is required to be displayed near all pools in QLD and NSW. Please check with your local council for all permit, fencing, pool cover, CPR signs, water restriction, rebates and any other pool and spa related information and requirements.

POOL AND SPA SAFETY TIPS

S	SUPERVISION	Users of the pool MUST always be supervised by an adult who is a competent swimmer and knows pool rules and emergency procedures.
A	ATTENTION	The supervisor must be in the pool surroundings at all times and giving their full attention to those in the pool.
F	FENCE	Clark Rubber recommends installing fences with childproof locks on gates for every pool in Australia. The gates should be locked at all times. Faulty locks must be fixed immediately. Make sure there is nothing that can be climbed on to open the gate or get over the fence.
E	EMERGENCIES	Be prepared for emergencies. Have a long pole, a ring buoy with a throwing line and a first aid kit close at hand. Keep emergency numbers handy. Get up to date training in lifesaving, first aid & CPR.
R	RULES	Establish pool rules and post them near the pool. Make sure all the family and friends know the rules. Don't make exceptions!

In addition to the S.A.F.E.R. message, these assees pool safety tips are vitally important for everyone to follow:

- When using chemicals never add the water to the chemical. Always fill the bucket with water first and then add the chemical that is being used. Always rinse the bucket well after use.
- Never mix different chemicals together in the same container.
- Make sure everyone is well protected from harmful UV exposure. Use a recognised waterproof sunscreen.
- Always store chemicals in a safe, dry, well ventilated place out of reach of children and animals.
- Always use a solar blanket when the pool is not in use. This helps reduce evaporation and protect our precious water resources.
- Never jump or dive into the pool.

Important information on Pool and Spa Safety: Never leave children unattended. #Pool packages include a relevant pump, a chlorinator, a cartridge filter, a deck ladder, your choice of a light or dark blue liner. Options and upgrades are available at an additional cost. Images are for illustrative purposes only, finishes and colour may vary. Landscaping, decking and accessories not included. Information valid as of November 2023 at time of print. Specifications and inclusions are subject to change.
