

**SAFETY DATA SHEET INFORMATION**

For further information: Please refer to the Safety Data Sheet following

Issue: January 23

**PRODUCT:** PROCURE

**Other Names:** Procure Binder, Pour-in-Place Binder

**Uses:** Rubber Binder

**Signal Word:** Danger

<b>UN No.:</b>	N/R
<b>Dangerous Goods Class:</b>	N/R
<b>Subsidiary Risk:</b>	None
<b>Packing Group:</b>	N/R
<b>Hazchem Code:</b>	N/R

<b>Hazardous Nature:</b>	This product is classified as hazardous according to Australian GHS criteria.
<b>Hazard Statement:</b>	Specific Target Organ Toxicity (Repeated Exposure): 1; Serious Eye Damage/Irritation: 2B; Specific Target Organ Toxicity (Respiratory Sensitiser): 1; Skin Corrosion/Irritation: 2; Specific Target Organ Toxicity (Skin Sensitiser): 2
<b>Exposure Standards:</b>	TWA: 0.12 mg/m <sup>3</sup> ; STEL: 0.17 mg/m <sup>3</sup> ; Peak Limitation (if any): None; Skin Sensitiser (if any): sensitiser on inhalation. Refer to Section 8 for further information and definitions.

**Physical Characteristics (Typical)** **Section 9 of the SDS**

Appearance	Clear, pale yellow viscous liquid
Boiling Point/Range (°C):	> 200
Flash Point (°C):	> 200
Specific Gravity/Density (g/ml @ 20°C):	1.1
pH:	Not applicable
Chemical Stability:	Stable at room temperature and pressure
Reactivity:	Extreme heat, oxidising agents, amines, alcohols and water

**Product Ingredients** **Section 3 of the SDS**

Ingredient	CAS Number	Proportion
PMPP Polyisocyanate Copolymer	53862-89-8	< 70
MDI (modified): diphenylmethane diisocyanate	9016-87-9	< 20
Other ingredients determined not to be hazardous	various	< 20

For further ingredients information, please refer to the full SDS

**Pictograms** **Section 2 of the SDS**

**DEFINITIONS**

Dangerous Goods	Products that are regulated for transport by Road and Rail under the national guide are Dangerous Goods. Products can be classed as Dangerous Goods if they have a flash point below 60.5°C, a pH below 3 or above 11, are explosives or toxic. These goods will be allocated a UN No., Packing Group, Hazchem Code, and possibly a subsidiary risk.
Hazardous Substances	Hazardous Substances are those products that are intrinsically hazardous by nature, rather than by misuse. These include mutagens, teratogens, carcinogens, products that are toxic (but not sufficiently toxic to be classed as Dangerous Goods or carry a subsidiary risk), and products that pose environmental risks.

## 1. IDENTIFICATION

**Product Name:** PROCURE  
**Other Names:** Procure Binder, Pour-in-Place Binder  
**Chemical Family:** Pre-coating  
**Molecular Formula:** No data available  
**Recommended Use:** Rubber Binder  
**Supplier:** A1 Rubber  
**ABN:** 85 663 589 062  
**Address:** 34 Binary Street, Yatala Qld 4207  
**Telephone:** +61 7 3807 3666  
**Fax:** +61 7 3807 2344  
**Emergency Phone:** **0408 070 384**  
**All other inquiries:** +61 7 3807 3666

## 2. HAZARDS IDENTIFICATION

### Hazardous Nature

This product is classified as hazardous according to Australian GHS criteria.

### Hazard Statement

Specific Target Organ Toxicity (Repeated Exposure): 1; Serious Eye Damage/Irritation: 2B; Specific Target Organ Toxicity (Respiratory Sensitiser): 1; Skin Corrosion/Irritation: 2; Specific Target Organ Toxicity (Skin Sensitiser): 2

### Pictograms

### Hazard

Irritant

### Hazard Statements

H315+320+335: Causes skin, eye, and respiratory irritation
H372: Causes damage to organs through prolonged or repeated exposure
H312 + 332: Harmful in contact with skin or inhaled
H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled

### Precautionary Statements

P102: Keep out of reach of children.
P260: Do not breathe dust/fume/gas/mist/vapours/spray.
P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.
P303+361+353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P284: [In case of inadequate ventilation] wear respiratory protection.
P301+312+101: IF SWALLOWED: Call a POISON CENTER/doctor, if you feel unwell, and have product container or label at hand.
P270: Do not eat, drink or smoke when using this product.
P337+313: If eye irritation persists get medical advice/attention.
P342+311: If experiencing respiratory symptoms: Call a POISON CENTER/doctor/...

### Dangerous Goods Classification N/R

Signal Word Danger

### 3. COMPOSITION: Information on Ingredients

Chemical Ingredient	CAS Number	Proportion (% v/v)
PMPP Polyisocyanate Copolymer	53862-89-8	< 70
MDI (modified): diphenylmethane diisocyanate	9016-87-9	< 20
Other ingredients determined not to be hazardous	various	< 20
Note: contains: methylenediphenyldiisocyanate	101-68-8	< 6

### 4. FIRST AID MEASURES

For advice, contact Poisons Information Centre (Phone Australia: 13 1126) or a doctor.

#### Ingestion

If swallowed, DO NOT induce vomiting. Keep at rest. Seek immediate medical attention.

#### Eye Contact

Flush area with large amounts of water until irritation subsides. Seek immediate medical attention.

#### Skin Contact

Flush area with large amounts of water and use soap if available. Remove contaminated clothing, including shoes and launder before reuse. Seek immediate medical attention for skin irritations.

#### Inhalation

Using proper respiratory protection, immediately remove the affected victim from exposure. Administer artificial respiration if breathing is stopped. Keep at rest. Seek immediate medical attention.

#### First Aid Facilities

Provide eye baths and safety showers

#### Medical Attention

Treat according to symptoms.

### 5. FIRE FIGHTING MEASURES

Shut off product that may 'fuel' a fire if safe to do so. Allow trained personnel to attend a fire in progress providing fire fighters with this Safety Data Sheet. Prevent extinguishing media from escaping to drains and waterways.

#### Suitable Extinguishing Media

Alcohol resistant foam, dry chemical or foam. Do not use water jets or spray.

#### Hazards from combustion products

Carbon dioxide, carbon monoxide, and nitrogen complexes

#### Precautions for fire fighters and special protective equipment

Full protective clothing and self-contained breathing apparatus

Hazchem Code N/R

### 6. ACCIDENTAL RELEASE MEASURES

#### Emergency Procedures

Prevent product from escaping to drains and waterways. Contain leaking packaging in a containment drum. Prevent vapours or dusts from building up in confined areas. Ensure that drain valves are closed at all times. Clean up and report spills immediately.

#### Methods and materials for containment

##### *Major Land Spill*

- Eliminate sources of ignition.
- Warn occupants of downwind areas of possible fire and explosion hazard, where present.

- Prevent product from entering sewers, watercourses, or low-lying areas.
- Keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Advise authorities if substance has entered a watercourse or sewer or has contaminated soil or vegetation.
- Take measures to minimise the effect on the ground water.
- Contain the spilled product using the resources in the spill kit.
- Recover by pumping – use explosion proof pump or hand pump – or with a suitable absorbent material.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See “First Aid Measures” and “Stability and Reactivity”

**Major Water Spill**

- Eliminate any sources of ignition.
- Warn occupants and shipping in downwind areas of possible fire and explosion hazard, where present.
- Notify the port or relevant authority and keep the public away from the area.
- Shut off the source of the spill if possible and safe to do so.
- Confine the spill if possible.
- Remove the product from the surface by skimming or with suitable absorbent material.
- Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.
- See “First Aid Measures” and “Stability and Reactivity”.

## 7. HANDLING AND STORAGE

**Precautions for Safe Handling**

This product is combustible. Do not use in situations of extreme heat. Avoid contact with naked flames or ignition sources. Use appropriate industrial hygiene practices.

**Conditions for Safe Storage**

Store in a cool, dry place away from sunlight. Keep container closed and protect packaging from physical damage. Check regularly for product leaks.

**Incompatible Materials**

Natural rubbers, polystyrene, household plastics

## 8. EXPOSURE CONTROLS: PERSONAL PROTECTION

**National Exposure Standards**

The time weighted average concentration (TWA) for this product is: 0.12 mg/m<sup>3</sup>, which means the highest allowable exposure concentration in an eight-hour day for a five-day working week. The short term exposure limit (STEL) is: 0.17 mg/m<sup>3</sup>, which is the maximum allowable exposure concentration at any time. Replacing a TWA or STEL value for some products is a Peak Limitation value (Peak): None applies in this case. In addition to the exposure concentrations may be a subsidiary caution in such cases where the product is a skin sensitiser, represented as (Sen), where sensitiser on inhalation applies in this case.

**Biological Limit Values (BLV)**

None established

**Engineering Controls: Ventilation**

The use of local exhaust ventilation is recommended to control process emissions near the source. Laboratory samples should be handled in a fume hood. Provide mechanical ventilation of confined spaces. Use explosion proof equipment.

**Personal Protective Equipment**

**Respiratory Protection:** Where concentrations in air may approach or exceed the limits described in the National Exposure Standards, it is recommended to use a half-face filter mask to protect from overexposure by inhalation. A type ‘A’ filter material is considered suitable for this product.

**Eye Protection:** Always use safety glasses or a face shield when handling this product.

**Skin/Body Protection:** Always wear long sleeves, long trousers, or coveralls, and enclosed footwear or safety boots when handling this product. It is recommended that chemical resistant gloves be worn when handling this product.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Unit of measurement	Typical Value
Appearance	None	Clear, pale yellow viscous liquid
Boiling Point/Range	°C	> 200
Flash Point	°C	> 200
SG/Density (@ 20°C)	g/ml; kgm <sup>-3</sup>	1.1
Vapour Pressure @ 20°C	kPa	No data available
Vapour Density @ 40°C	g/ml; kgm <sup>-3</sup>	> 1.0
Autoignition Temperature	°C	Decomposes above 230
Explosive Limits in Air	% vol/vol	No data available
Viscosity @ 20°C	cPs, mPas	3000
Percent volatiles	% vol/vol	< 50
Acidity/alkalinity as pH	None	Not applicable
Solubility in Water	g/l	Insoluble but reacts with water
Other solvents	-	Esters

The values listed are indicative of this product's physical and chemical properties. For a full product specification, please consult the Technical Data Sheet.

## 10. STABILITY AND REACTIVITY

### Chemical stability

Stable at room temperature and pressure

### Conditions to avoid

Extreme heat, oxidising agents, amines, alcohols and water

### Hazardous decomposition products

Carbon dioxide, carbon monoxide and nitrogen complexes

### Hazardous reactions

Carbon dioxide and heat in reactions with amines and water

### Hazardous polymerisation

Will polymerise with addition of heat

## 11. TOXICOLOGICAL INFORMATION

### Acute Effects

#### **Ingestion**

Swallowing will result in discomfort, irritation to throat and oesophagus, dizziness, headache, shortness of breath, and a sense of euphoria. Symptoms may lead to central nervous system disorder, nausea, loss of consciousness, and possibly pulmonary oedema.

#### **Eye Contact**

Avoid contact with eyes. Risk of serious damage to eye and surrounding tissue. Product and vapour will be irritating to eyes resulting in redness, tearing, swelling, and corneal damage.

#### **Skin Contact**

This product is irritating to skin resulting in itchiness, redness, defatting of the skin and possibly swelling. Prolonged exposure to this product without the appropriate PPE may result in irritant contact dermatitis.

#### **Inhalation**

Inhalation of mists of this product will result in symptoms similar to ingestion. This product will be irritating to respiratory system, nose and throat. Sensitisation to this product is possible through inhalation.

**Chronic Effects**

Sensitisation is possible through inhalation. Exposure to reactions of this product with incompatibles can result in long term adverse health effects.

**Other Health Effects Information**

Persons with pre-existing liver, respiratory and, or skin conditions may be sensitive to this product.

**Toxicological Information**

Oral LD<sub>50</sub>: MDI: rat: 49 g/kg

Dermal LD<sub>50</sub>: Inhal (rat): 490 mg/m<sup>3</sup>/4hr; Skin (rabbit): > 9400 mg/kg

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity**

**Aquatic Toxicity:**

- Fish Toxicity LC<sub>50</sub>: > 50 mg/L
- Daphnia Magna EC<sub>50</sub>: > 250 mg/L
- Blue-green algae: No data available
- Green algae: No data available

**Persistence/Biodegradability:**

This product is expected to biodegrade, with exothermic reactions.

**Mobility:**

This product is not likely to be mobile. This product is strongly reactive to environmental elements.

## 13. DISPOSAL CONSIDERATIONS

**Disposal Methods**

Empty packaging should be taken for recycling, recovery or disposal through a suitably qualified or licensed contractor. Care should be taken to ensure compliance with national and local authorities. Packaging may still contain product residue that may be harmful. Ensure that empty packaging is managed in accordance with Dangerous Goods regulations.

**Special Precautions**

This product is not suitable for disposal by either landfill or via municipal sewers, drains, natural streams or rivers. This product should be treated and disposed through chemical waste treatment, or considered for use in recycling.

## 14. TRANSPORT INFORMATION

Road and Rail Transport		Marine Transport		Air Transport	
UN No.	N/R	UN No.	N/R	UN No.	N/R
Proper Shipping Name	Polymer binder	Proper Shipping Name	Polymer binder	Proper Shipping Name	Polymer binder

Hazchem	N/R	Hazchem	N/R	Hazchem	N/R

**Dangerous Goods Segregation**

This product is not classified as Dangerous Goods for Transport by Road and Rail.

## 15. REGULATORY INFORMATION

**Country/Region:** Australia

**Inventory:** AICS (AICIS)

**Status:** Listed

## 16. OTHER INFORMATION

**Reasons for Issue:** New product formulation; amalgamated changes in all sections.

**Abbreviations:**

AICS: Australian Inventory of Chemical Substances

CAS Number: Chemical Abstracts Number

IARC: International Agency for Research on Cancer

GHS: Global Harmonising System
