Scuba N1 Ultra

Key Features

Ultra Cleaning Performance - You want one device to handle your pool, your entire pool. The N1 Ultra features four brushless motors and filters up to 130 GPM (492 LPM) of your pool's water. Dirt, debris, impurities, and microorganisms as small as 3 microns are all eliminated by the dual-layer filtration system, giving your entire pool, including the walls, and waterline, an ultra-clean.

WaveLine™ Technology - The industry-first cordless robotic pool cleaner capable of horizontal waterline cleaning, the N1 Ultra possesses precise flow, dual drainage outlets, and an infrared sensor system for navigation and obstacle avoidance while cleaning your pool.

Dual Layer Filter - Equipped with a dual-layer filtration system, the N1 Ultra is designed to remove all impurities and microorganisms from your pools as small as 3 microns, making the Aiper Scuba N1 Ultra the best choice for a healthy pool.

Advanced Obstacle Avoidance - Four infrared devices are equipped to the N1 Ultra, enabling the device to detect and react to obstacles present in your pool. For maximum cleaning coverage, superior precision, and extended cleaning capabilities.

Other Features

Expanded Debris Bin - Designed for the toughest cleaning jobs, the 7.5-liter debris bin tackles the biggest pools and the dirtiest jobs. Up to 2150 Sq. Ft and up to three hours of cleaning, all done with ease and the Scuba N1 Ultra.

Waterline Recall (Optional) - Waterline Recall offers ultimate convenience with the Aiper App. Command your device from pool to waterline for easy pickup and quick storage, transitioning smoothly in minutes.

Water Quality Monitoring (Optional) - The Aiper communication buoy tests home pool water, providing real-time pH, ORP, and temperature data to your Aiper App.

Smart App Control (Optional) - With the Aiper Communication Buoy, users can control and monitor their Aiper device's in real-time via the Aiper App. View water health reports, manually pilot your device, and more.
