Important Information for Customers

Be Safe Portable Pool Fence

Pool owners must ensure their swimming pool complies with the regulatory requirements specified in the Queensland Development Code Mandatory Part 3.4 and the Australian standards reference therein.

Please note that before removing the Be-Safe Portable Pool Fence and returning it to a Clark Rubber store, customers need to ensure the pool is enclosed with a compliant pool barrier and meets the applicable laws, or remove or demolish the pool.

Customers who elect to continue to use the Be-Safe Portable Pool Fence as a part of their pool barrier, must;

1. Ensure their pool is registered;
 2. If their pool was not installed under a building development approval, engage a building certifier or
 3. If their pool was installed under a building development approval, engage a building certifier or a pool safety inspector before commencing any alterations to the fence.
